REPLY. Gentlemen; Nothing can be more gratify-ing than the bener of having succeeded in gaining the approbation and good will of the gaining the approbation and good will of the people of one the most important constituencies in the country. I have great pleasure in accepting the nomination alluded to in your requisition. The next Legislative Assembly will probably be the most important that has ever met in this colony, and it between good men to be vigilant, and to exert themselves to insure the appropriate of

elves to insure the successful working of Parliamentary Government.

Is many be found well in practice to remamber that the misrepresentations of those designing men, who so loudly asserted that you were not qualified to startise political functions with advantage to yourselves or to the country, have been signally refuted, and that theive years of misgovernment proves most conclusively, that they we e not competent to shild or exercise, the office of governors Experience shows that it were vain to expect political improvement from men in whose rogress, when not identified with their personal rofit or advancement. I confess that when speculating on the causes which led to the puzzled to account for the long continuance of a poli ical system; to which is traceable so much unmixed evil-a system contaming within itse.f such active elements of ruin which when considered in the abstract, migh bave been expected to put an end to its exist-ence much somer. Nor indeed is this all. It will be the duty of future legislators, in their post morten examination of the late government to fearle-sly probe the complica d di-orders which paved a way for its final

dissolution. It is not probable that any modern English community has suffered politics ills so tari-ently as the people of British Columbia. The amount of maladministration, and the extrardinary nature of official aggrandizement is erfectly astoundi g. Amorea e .1 rab e collect ti n of despotic fullies can haruly be imagined. We have seen public servants voting their wa salaries, fixing their own pensions, defying public opinion, ad pursuing with udied malevolence, the popular representaemployed as envoys entrusted with important executed, whom the people have never rusted and have long suspected-creatures who are to dritish Columnians what the hateful Candians were to the Ancient Remans say to come this humiliating drama, a percent and apparently senseres superior authority receive them with fulsome flattery, and ap plause and preferment is showered upor

The singu arly baneful and distinctive natire of these events, is preguent with restruction and warning, and affords to every reflecting mind numerous and important lessons. The time appears appropriate for turning such lessons to account by improvements at once expedient, practical, and decisive; but they realize only half the danger which these events indicate, who see in them only official asseptation on the one hand, and determined opposition on the other. The lesson which these events teach us is, that gross legislation wand extreme ag tation are inseperably connected —that each is the blood relation of the other. Nay more, the danger indicated is to be apprehended by placing great powers in the ands of our governors without being secured y immediate not remote, certain not dubious onet twional laws that those nower shall not be dinsed. It will hardly be disputed by men of candonr and experience that there are certain requisites indispensably necessary to the security and efficiency of all just governments the most important of which I believe to be, reedom and security against wrong. Now think you will readily admit that most civilized government have succeeded pritty will in securing the people against wrong from each other; but to accure them by laws against wrong from the government itself, is a problem of a far more difficult sort, which

lew nations since the confidencement of gev-ernmen's have attempted to solve. But it is a problem upon the solution of which depends the freedom and security of every existing nation against oppression and peculation, and which from its importance commends itself to the auxious and impartial consideration of all men who are desirous of rendering permanent That it is not the business of those who povern to compel public opinion to follow lic opi ion, is a canon of my political creed.
Unfortunately the practice of these the diare
governed this colony, has been, both by
precept and example to think differently, but
the day is no far distant when the predictions

of the advocates of justice and of re-son shall verified .- When the u just and barbarou aws which distranchises so many intelligent a A worthy cousens shall exist only as evi-dence of the bigotry, and sorded ignor nee of those from whom they emanated.—when the cromising future proclaims the results of Confederation, the promotion of arts and science, the diffusion of useful truth, of education, of civil and religious liberty. I carnestly trust that with the advantages afforded by Confederation and Responsible Government our popular representatives may permanently reform the bad legislapolitical history and insure the prosperity and appiness of all.

## The Daily Standard

Friday, August 25, 1871. OTICE.
JOHNSON STREET, near the Eing's Head. Jau284 The Pacific Railway. The Toronto Globe of July 28th contains a lengthy article on the subject of the Pacific Railway Survey, in which, if the writer is to be believed, the Dominion Government is making a sad mess of the affair indeed. Every step so far taken has been a wrong one, and threatens to terminate in an inextricable and very expensive muddle. The Globe, however, is no friend to the present Administration, and being only too anxious to work up a case against it, no matter what the pretext, we think its utterances on the subject of the railway survey should be accepted cum grano salius. Its strictures are confined exclusively to the operations going forward on the eastern side of the mountain, probably because its correspondents on this side have not yet had time to furnish the necessary material wherewith to justify an attack upon the Government for having been either too fast or too slow with the survey, or because the various parties scattered over the face of the country in search of the best route for the line of road have not been supplied with every necessary convenience to enable them comfortably to prosecute their labors, or because they did not foresee every difficalty that would beset their path and prepare them with all things requisite to overcome them. In due time, we pre-sume, those in British Columbia will also come in for their share of our Toronto contemporary's criticisms. One fault with the Globe is that it looks upon every act of the Ottawa Government with a jaondiced eye. Nothing good can by any possibility emanate from that source. and the consequence is that when it has good grounds for making an attack, it loses much of its force because of its well known habit of fault-finding, not so much that there is a reasonable ground for so doing as that it may thereby serve its party by creating a prejudice in the pub-lic mind against the Government. Hence it would be very unwise for the readers of that journal, in this country particularly, to accept as reliable all that appears in its columns on the subject of the railway, or, in fact, any other subject bear ing upon the action of the Government There is one statement, however, made by the Globe which, as it has a direct and important bearing upon the welfare of British Columbia and involves the good faith of the Dominion Government, deserves attention and a passing notice. It is to the effect that the Bill to annex British Columbia to the Dominion was only passed by the House of Commons after a secret agreement had been entered into that the Government would not press to completion, within the specified ten years, the entire line of the Canadian railway to the waters of the Pacific. Whether there is a grain of truth in this statement, we are unprepared to say. Our contemporary does not give it as a mere rumor, but as a fact of which it professes to be fully cognizant. And what to our mind gives it some degree of weight is the remark made by Mr. Trutch at the banquet given him at Ottawa, that the people of British Columbia under certain circumstances would not be disposed to insist upon the fulfilment of the terms of union agreed on as regarded the completion of the railway within the specified ten years. True, the Dominion Government has so far manifested a commendable determination to complete its share of the contract with all possible dispatch in sending out a large staff of engineers to make preliminary surveys with a view to fixing upon the most eligible route for the railway, and also in taking initiatory steps toward a thorough geological survey of the country, which in a measure shakes our confidence in the reliability of what the Globe asserts about the secret understanding with the House of Commous to play this country false in reference to the matter of the railway. Nevertheless, to be forewarned is to be forearmed, and it will devolve upon our representatives at Ottawa to watch closely the movements of the Government with reference to this matter, and see that the interests of British Columbia are properly attended to, and that the conditions upon which it was agreed to construct the railway are carried out to the letter. We know that on this question our representatives will be a unit, and that in a House where parties are pretty evenly balanced, they ean, when acting together, exert an influence that will command both attention and respect. According to the terms the work on the road is to be commenced simultaneously at each end of the line and if this condition be complied with it will undoubtedly be to the interest of the Dominion, as it will be to our interest, to push the work forward as rapidly as men and money can be brought to bear upon it; and as at present the credit of the Dominion is A 1 in the English money market, not the slightest difficulty will be experienced in obtaining all the money that may be required to construct all events the people of British Columbia will insist upon the completion of the railroad within the period agreed upon, and any attempt on the part of the Ottawa Administration to postpone the matter, or in any way to violate their centract, will be met with the most determined opposition by the people of this Province. Our case of the people of this province. the road by whoever may have the contermined opposition by the people of this Province. Our earnest wish, however, is that nothing of the kind may arise to disturb the cordial good feeling that at present exists among the people of Brit-ish Columbia toward the Administration

is as follows:

Reverend Gentlemen I most gratefully acknowledge the kind congratulations which you present to me on land. We use y return to undertake the duties of the of \$30,000. rable positisn to which I have been ap-

pointed,

The approval of my past public conduct,
and the confidence that I shall faithfully administer the office I am now charged withwhich you, the Ministers of the Church in this Diocese, of which I am a member, and to which I am attached by every bond of feeling for the repair of such sidewalks. and conviction, bave expressed in your ad dress, are peculiarly gratifying and encouraging to me; and I carnestly join in your sup-plication to the Almighty that I may be so directed in the exercise of my official functions as to promote to the utmost the truest interests of this our adopted country.

RELEASE OF FENIAN CONVICTS .- Some eight made for his reception. of the unreleased Fenian convicts have been eluding Woking, Chatham and Portland-to Millbank convict establishment, prepatory, it those so transferred and about to be set at large are Colonel Richard Burke, to effect whose escape the wall of Clerkenwell House of De-tention was blown down in December, 1867, and for complicity in which attempt Michael Barrett was executed at Newgate in May, 1868. Colon ! Burke would, it is said, have long since been liberated, but that he exhibited signs of mental aberration, which has now disappeared. O'Meara Condon, whose sen-

tence was penal servidude for life, and who served in the American army during the Civil War, is also amongst those about to be set free, Recently a long correspondence re-specting his imprisonment took place between his friends and the United States Government, and the latter, through Mr. Secretary Fish, promised their interference on the matter with our own government. With the exception of Condon the other prisoners were sentenced each to five years penal servitude, so that in the ordinary course their terms would have Burke will, on account of his bad bealth, be the only exception in the batch to the condi-tion of expatriation.

COLUMBIA RIVER FREIGHT TO THE SOUND .-The Oregonian says in its issue of Wednes-

"The amount of freight, principally pro-duce, offering for Victoria to-day, surprised many. Although we were aware of several large orders awaiting filling, yet we were unprepared to see so much to ship. The steamer conssie Telfair refused freight early in the afternoon for Victoria, owing to being full. She took none whatever for Puget Sound. From what we can learn, there is more than soungh goods awaiting shipment for Sound posts than she can carry in one trip, aside from that refused for Victoria this trip, and

The Kalama Beacon writes: "Trade in the direction of the Sound, and especially British Columbia, is increasing beyond any other line of commerce on the whole coast; and when the railroad is completed from Kalama to the Sound commerce will be quadrupled in that direction. Already during the present year, 27,394 gr. sacks flour have been shipped to Victoria, without taking into account the Sound ports, the specific extent of the latter Sound ports, the specific extent of the latter not being reported.

FROM THE SOUND .- The North Pacific ar wed yesterday afternoon with forty-five pas ingers, ten head of borned cattle, fifty sheep, horse, sixty boxes fruit, the mails, etc.

Police Court.

[Before A. F. Pemberton, Esq.]

THURSDAY, August 24, 1871. Capt. Pamphlett, one of the Victoria pilots ued Capt. Nott, of the ship Helen Morris, fo an infringement of the Pilot Act, in employing an unlicensed person by the name of Butlet to act as pilot from Royal Roads to Burrare Inlet, while the ship was in tow of the steamer Isabel. The case was dismissed.

No Coast Sunvey .- Our readers will reollect that we stated on the arrival of the Railway Sarveyors that there would be no survey of the Johnson Strait route this year. This statement, we are sorry to say, is con-firmed. Mr. John Trutch will proceed to Eagle Pass and take the levels from that point via Fraser river to the Gulf of Georgia. The most important portion of the coast survey will consequently be postponed till next ear-a great disappointment to this community.

WASHINGTON TERRITORY .- Beriah Brown editor of the O'ympia Standard, is about to edit the Seattle Dispatch. The latest news about the steamer Olympia is, that she will be placed on the San Diego route, in connection with the Wm. Tabor. Governor Salomon has appointed Hon. Wm. H. Wallace, mon has appointed Bon. Wm. H. Wallace, Philip Keach and Judge W. P. Dougherty (the latter ex-officio) inspectors of the Insane Asylum, now located at Stellacoom.

A WATER SUPPLY -At the next meeting of the City Council a resolution to the following effect will be introduced: That a committee be appointed to employ a competent engineer with assistants, to make a final sur-vey and drive stakes along the best route for a water course, between Beaver Lake and a point hereafter to be determined by the Mayor and Council, either within or without the city limits.

ANOTHER BIG FIRE .- VIRGINIA, Nevada August 20-About 3 o'clock this morning, s fire broke out at No. 24 D street. It got beond control until it swept everything on the west side of D street from Union Hall to Sutton Avenue, both sides of E street, and the west side of F street for the same distance Loss, \$150,000, on which there was some in surance, but the amount cannot be ascer-tained to-day. About fifty buildings were destroyed—all wooden.

NANAIMO .- The Sir James Douglas arrived at six o'clock last evening from Nanaimo and way ports, with the Hon. H. L. Langevin, M. Archentre, Mr. Tilley, and four other passengers. The steamer made a remarkably quick run, not having left Nanaimo until two hours after her usual time.

EXTENSIVE PURCHASE. - Messrs. C. Strouss & Co. have purchased from the administrators of the late J. Wilkie & Co., the whole of their shipments per Princess Royal and try.

Mountain Ash, now on the way from England. We understand the amount is upwards terday before the court-martial in Versailles,

SIDEWALKS .- The owners of property fronting which property are defective sidewalks, having failed to repair the same in accordance with notice of the city authorities, will be compelled to pay the corporation

A New York dispatch of the 21st, says Cable intelligence announces the departure of the Russian imperial fleet with the Grand Duke Alexis, from Cronstadt for New York, pesterday. The arrival is looked for October lst. Preparation on a grand scale is being

Nelson's mill, Burrard Inlet, to load lumber, the former for Coquimbo, South America, and the latter for Valparaiso.

ANOTHER STEAMER FOR THE SOUND .- Portland papers say the Oregon Iron Works are casting machinery for a new boat to be built on Puget Sound. Some of it was shipped on the Gussie Telfair on Saturday, and consigned to Robinson & Wright, of Seattle.

ANOTHER ADDRESS .- Mr. Edmonds, Town Clerk of New Westminster, was the bearer of an address from the City Council of the "Royal City" of New Westminster to the Lieut. Governor, and which was presented yesterday. AUCTION THIS DAY . - For to-day, commence

ng at 11 o'clock, a large and varied stock of goods will be offered at auction by Messrs Davies & Co. The goods comprise sugars, liquors, groceries, provisions, window glass brooms, tubs, etc.

FOR THE UPPER COUNTRY .- Amongst the freight being shipped per Enterprise, for the Mainland, yesterday, were 4,000 the of Chicago bacon, which arrived here per Prince Altred. It is shipped by the Messrs. Uppen-

RISING .- Freights from Yale for Soda Creek have risen from seven cents to ten cents, with probability of advancing to 13 cents; good time for the teamsters. THE Nathan Juvenile Theatrical Troupe,

now playing at the Oro Fino Theatre in Portland, will be over here in a few days-so a letter from Portland informs us. THE Gussie Telfair sailed from Port Town-

send for Nanaimo and Bellingham Bay, yesterday morning. She will call here about Tuesday, on her return to Portland.

Expanss Fangur.-Gerow & Johnson' express will carry forward to-day for Cariboo, nearly a ton of express matter, comprising machinery, etc.

FOR NEW WESTMINSTER .- The Enterprise Capt. Swanson, will leave at 7 o'clock this morning. The Enterprise will leave via Na-

LAST NIGHT'S DESPATCHES.

CANADA. St. John, August 23-After Renforth was brought ashore, his recovery was temporary, he not being twenty minutes in the Clareont House when he died. It is admitted now that the race was fairly

lost to the Tyne crew before Renforth was attacked. The St. John crew reached the urning stake in eighteen minutes, and made the entire race in forty minutes. EASTERN STATES.

SARATOGA, Angust 23—There was great in-terest in the race between Longfellow and Helmbold. During the first three miles, Longfellow led by from one to two lengths; Helmhold began to gain on the last eighth of the third mile, passing under the string half a length ahead. Longfellow lost steadily during the last mile, Helmboldt leading by three lengths at the first quarter, six at the half-mile, and finishing sixteen lengths ahead of Longfellow, amid most tremendous and enthusiastic cheering; time, 7,491. Utica, N. Y., August 23-A terrible fire in

this city last night originated in the works of rimothy Holliver, Aurora street, at 11:30 o'clock, and spread north and west, sweeping a large area of buildings, before it was got under control. A row of stone and brick buildings on Aurora street, to the Utica Hotel, are destroyed, and Green street for buildings of the bust of the Control of the Contro half a block. It burned both sides also of all the buildings south of Tiogs street, except those at the corner of State street. Total loss, \$122,000; insured for \$70,000.

The investigation into the case of Major Robinson alleged to be connected with the Cuban Rebellion, admitted to bail on the 5th in Montreal, was resumed before Judge Coursol. Mr, Dunbar Brown appeared for prisoner and E. Cartier, Q. C., for Spanish Gov-grament. Evidence of W. L. Thom, Montreal Gazette, proved that in several interviews between him (Thom) and Major Robinson, the latter had stated there was good ground for belief that an expedition was organizing in Montreal for Cuba service. In cross examination the witness admitted that the accused during one of these interviews, proposed call on the Spanish Consul, and talk over the preparations to celebrate the anniversary of the proclamation of the French Republic, on ness' evidence tended rather to show that Robinson sought an opportunity to inform the Spanish Government of all he had heard in the matter. Appearances seemed strongly against any unlawful intent on the part of

> The cricket match between the Ottawa Club and the Montreal Club was played in Montreal on the 5th. It resulted in favor of the Montreal Club by a score of 133 to 114. Time would not allow more than one innings to be played. The game was the finest played in

The German Army.

The union of the North German and South Jerman contingents and the extension of the Prussian Landwebr system to South Germany nake the German Army the most numerous Bishop Sural, who escaped from prison, as it is the best organised that the world has but who was caught by some young defenders from the barricades, and brought back by a posed of 153 regiments of infantry, 100 of fury drew a revolver and shot down her in men to the German regiments, and the present Prussian army, numbering 188 regi-ARRIVALS FROM SAN FRANCISCO.—The bark tial to day, the argument for the prosecution regular cavalry. The addition of the Landference that the latter comprises three battalions of 1,000 each and the former only two establishes the fact that federals disguised as lu the cavalry the 100 regiments of the Line firemen fed the flames in Paris with pet-12. The troops of the Line are divided into

which the North furnishes 24 and the South eighteen corps, twelve (eleven and the Guards being the quota of Prussia and the small Northern States, two of Bavaria, and one each of Saxony, Wurtemberg, of Alsace and Lorraine, and of Baden and Hesse. Each corps is to comprise eight or nine regiments of infantry and five or six of cavalry. Of the Landwehr Bavaria will furnish 32 or 34 battalions, Wurtemburg 12 or 16, Baden 12, Alsace and Lorraine 12, Hesse 6, and North Germany the remainder. Immense as these numbers may seem, North Germany has actually maintained its proportion since 1866 and Prussia even more. A report intely published in the Official Gazette shows that the whole of the Landwehr has not even been required in the Franco-German war, for eventeen batalions of infanty, eight reserve battalions, and a number of engineers have never been called out. Taking only the Line iato consideration, the German Army is numerically a match for the combined forces of Austria and Italy, numbering eighty regiments each. Our own little Army of 112 regiments, composed of 156 battalions of about 500 men each, hardly exceeds a sixth of the German force.

County Counts .- In the year 1870 there were 912,298 plaints entered in the County Courts of England and Wales, being a smaller number than in either of the preceding three years. The sums claimed amounted to £2, 644,762. Judgment was entered in 523,340 cases (921 being tried by jury), the judgment being for sums amounting to £1,321,223, ex-clusive of costs. The costs amounted to £62,319, and the court fees on all proceedings to £352,845. 179,822 executions were issued against the debtors' goods, and 6 597 debtor-were made. 26,337 warrants of commitment were issued, and 6,597 debtors were imprison ed. In 1870 there were 656 equitable ceedings in the County Courts, and 375 Admiralty proceedings. The courts sat on 8,085 days. Since the establishment of County Courts in 1847 more than 16 million plaints have been entered, the claims exceeding 43 millions eterling; and judgment has been obtained in above nine million cases, and for sums exceeding 22 millions sterling. About 21 thousand cases have been tried by jury The Oity of London Court is not included

We may may mention at once that the plaintiff was nonsuited, but a point raised was this, whether if in the opinion of an attorney a client has become bound to such an extent council for the United States Government before the International Commission of the United States and Spain, has enclosed to claimants a copy of regulations for the guidance of claimants. Several claims thus far have been filed. Arbitrators will not meet before the first Monday in December next to hear any case at that time ready for hearing.

New York, August 21—The Boston Pilot calls upon all Irishmen fo repudiate the so-called leaders of the Irish people in New York city, asserting that the hot-headed, incendiary utterances of a few fanatics who assumed leadership, are a gross imposition, and are not to be interpreted as expressing the sentiments of the Irish people, who as a life was nonsuited.

VISITORS TO THE ROYAL ARSENAL .- It is the rule now that foreigners desirous of visit-ing the Royal Arsenal, or any other of the Government Establishments at Woolwich must apply at the War-office for permission through the embassies of the country to which they respectively belong. This seems, but reasonable, Mr. Reed, however, the late Chief Constructor of the Navy, having just exturned from his travels, protests, and by way of contrast assures us that in Russia ever ship and every ting that he cared to see were shown to with perfect courtesy and openness, ever to the latest and most important improvements.
